Overview

In the interest of fully complementing the human resources and institution needs and requirements of the industry, energy, and emerging technology research and development sectors, making the opportunity available to the great majority, PCIEERD implements the Human Resources Development Program which aims to: a.) develop and enhance Filipino research and development (R&D) capabilities of academic/research institutions and Department of Science and Technology (DOST) agencies through degree programs, conduct of research activities, and expert mobility in the industry, energy and emerging technology sectors in order to meet the present and future human resource requirements; and b.) encourage Filipino researchers to be more productive researchers by providing support for disseminating their research outputs in the industry, energy and emerging technology sectors in local and international conferences, fora and similar events.

Opportunity summary

The Full-Blown Proposal should fall as a non-research and development project.

This funding opportunity encourages the a) development of Filipino research and development (R&D) capabilities in the academic and research institutions through degree programs, conduct of research activities and expert mobility in the industry, energy and emerging technology sectors in order to meet present and future human resource requirements.

The Council shall provide funding support for the following components under the HRDP:

1. **Research Dissemination**
 - Presentation of Scientific Outputs in Conferences, Symposia, Fora, and Seminars
 - Publication of Scientific/Research Papers in S&T journals
2. **Research Fellowship**
 - Visiting Expert program
3. **Research Capability Building**
 - Researchers on Industry, Energy Emerging Technologies - Opening Opportunities for Learning (RIEETOOL)
 - Providing Resources, Opportunities and Support for Project-based PErsonnel and Researchers (PROSPPER)
 - DOST Facilities and Laboratory Access Grant (FLAG)

Who can apply

PCIEERD HRDP

1. Research Dissemination

- **Presentation of Scientific Outputs in Conferences, Symposia, Fora and Seminars** - This covers support to researchers, faculty, and other S&T personnel of academic and research institutions for presentation of research results in refereed scientific/technical conferences, fora, seminars, trainings and workshops.
- **Publication of Scientific/Research Papers in Scientific/Technical Journals** - This covers support to researchers, faculty, and other S&T personnel of academic and research institutions for the publication of research results in refereed scientific/technical journals and related publications.

2. Research Fellowship

- **Visiting Expert Program** – This is open to institutions needing faculty/experts from another institution who possesses the required expertise not available in the host/requesting institution.

3. Research Capability Building

- **Researchers on Industry, Energy Emerging Technologies - Opening Opportunities for Learning (RIEETOOL)** - This covers support for development of

skills and knowledge aligned with the PCIEERD priority sectors. This is open to a) researchers, scientists and engineers (RSEs) from academic and research institutions for attendance to specialized training; and b) academic or research institutions for conduct of specialized trainings.

- **Providing Resources, Opportunities and Support for Project-based PErsonnel and Researchers (PROSPPER)** - This covers assistance for graduate scholarship of project personnel for PCIEERD-funded and monitored projects for the conduct and completion of their graduate degrees while gaining research experience in the said project/s.
- **DOST FLAG** – This is open to BS and graduate (MS/PHD) students who will conduct research projects directed towards developing emerging technologies and exploring innovations in the PCIEERD sectoral priority areas such as, but not limited to, materials research, electronics and applied physics. The grant is an outright research subsidy which will finance expenses for testing and analysis fees specifically in the use of any of the equipment in the identified DOST- and DOST-funded facilities, centers and laboratories, e.g. ADMATEL, EPDC, etc.

Preference is given to researchers and/or institutions who are new to the R&D ecosystem.
