17 proposed goals of SDGs

Goal 1  End poverty in all its forms everywhere
Goal 2  End hunger, achieve food security and improved nutrition and promote sustainable agriculture
Goal 3  Ensure healthy lives and promote well-being for all at all ages
Goal 4  Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all
Goal 5  Achieve gender equality and empower all women and girls
Goal 6  Ensure availability and sustainable management of water and sanitation for all
Goal 7  Ensure access to affordable, reliable, sustainable and modern energy for all
Goal 8  Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
Goal 9  Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation
17 proposed goals of SDGs

Goal 10  Reduce inequality within and among countries
Goal 11  Make cities and human settlements inclusive, safe, resilient and sustainable
Goal 12  Ensure sustainable consumption and production patterns
Goal 13  Take urgent action to combat climate change and its impacts
Goal 14  Conserve and sustainably use the oceans, seas and marine resources for sustainable development
Goal 15  Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss
Goal 16  Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels
Goal 17  Strengthen the means of implementation and revitalize the global partnership for sustainable development

Research question?

• Policy management

• School Health & Disaster Reduction

Diagram:

- Formulation
- Evaluation
- Implementation
Objective

• To identify areas in the emergency and disaster preparedness, response and rehabilitation capacities of government schools in the Provinces of Leyte and Samar which need strengthening.

RA 10121: Philippine Disaster Risk Reduction and Management Act of 2010

An Act Strengthening the Philippine Disaster Risk Reduction and Management System, Providing for the National Disaster Risk Reduction and Management Framework and Institutionalizing the National Disaster Risk Reduction and Management Plan, Appropriating Funds Therefor and for Other Purposes
Case study research

• Documents review
  • national policies, DepEd policies, DepEd memorandums,
  • inter-agency joint memorandums, DepEd manuals,
  • DepEd press releases, local literatures, and foreign literatures.

• Key informants interview
  • Department of Education (DepEd) officials and teachers
  • Disaster Risk Reduction Management (DRRM) officials
    • Central government staff
    • Regional government staff
      • Tacloban area: Most damaged
      • Samar area: Least damaged
Document reviews

DRR related:

1) National policies – Republic Acts
2) DepEd policies – National & Regional
3) DepEd memorandums – National & Regional
4) Inter-agency Joint memorandums
5) DepEd Manuals
6) DepEd press releases
7) Local & foreign literatures

Plan for analysis

- Disaster management cycle
- Factor influencing implementation of policy and practice on school health

(Whitman V 2005)

Factor influencing implementation of policy and practice on school health

- Vision & Concept
  Guideline (International & National)
- Dedicated Term & resources
- Stakeholders ownership & participation
- Team Training & Ongoing coaching/ Learning community
- Cross-sector collaboration
- Champions & Leaders at All level
- Data-Driven Planning & Decision-Making
- Administrative & management support

- Adapting to local concerns
- Attention to External Forces
- Critical mass & supportive norm
- Stage of readiness

| Lack of donor coordination      | 1. KII – Tanauan principal p.5  
2. FGD - National DepEd DRRMO p.11 |                                                                   |
Main findings:

1. **Lack of donor coordination**
   During the response phase, there was no clear coordination at the school level in terms of management of donation.

2. **Strong leadership of LDDRM & the School**
   Local level leadership (Mayor, Department Heads and School Heads)

3. **Different hazard types**
   Nationally mandated disaster drills focus on fire and earthquake; however, the communities suffer from other disasters such as typhoon, land slide, high tide, etc

4. **Proportion of budgets expenses**
   The input to school inclines towards to response of disaster management, not to preparedness.
Recommendations

1. There is a need to identify & capacitate the person in the school who will manage receiving and distribution of donations
   • This person in the school should coordinate with his/her counterpart in the division and regional offices of Dep Ed.

2. Strong leadership at the local government units and the school should be maintained. This should be documented and disseminated as a good practice.
Recommendation 3

• Adapting to local concerns

• Data-Driven Planning & Decision-Making

• Nationally mandated disaster drills focus on fire and earthquake; however,

• Other hazards such as typhoon, land slide, high tide, storm surge, etc. are present in the communities
