## **Overall Strategies**

### **Human Resource**

- · Engagement/pre-engagement of potential/interested IDP proponents/researchers prior to IDP
- Development of specialized/fieldspecific training/s for researchers by the different IDP labsthat can be open or offered to parties beyond the IDPs' Implementing Institutions
- · Green/Environmental **Nanotechnologies**
- · Additive Manufacturing
- Natural Language Processing R&D
- Quantum Computing
- Al Applied to DRR
- · GIS for DRR Applications
- Applied Microbiology
- · Industry Immersion

### R&D Technologies

- Publications, patents and UM for IDP projects/programs
- Facilities / Services
- Establishment/upgrading of the various laboratories/facilities of HEIs/SUCs that have R&D frameworkaligned to PCIEERD Sectoral Concerns
- Natural Language Processing Lab
- Al for Disaster Lab
- · Microbiology Testing Lab
- Legal Sector Technologies/Innovation hub/

### **S&T Policies**

- Development of guidelines in the use/access of all IDP Facilities and/or Services
- Updating/amendment of IDP Guidelines

**20M** (55M)

- Creatives on Footwear
- Creatives on Furniture
- Creatives on Textile Unmanned
- Vehicle **Systems**
- Human Security (Nitration/ explosiveslab)
- Establishment of Legal Technologies and Innovation Center

# **Human Resource Development Program (HRDP) Roadmap**

Updated as of 29 February 2024

### **Overall Strategies**

### **Human Resource**

- · Engagement/pre-engagement of potential/interested HRDP proponents/researchers prior to Call For Proposals (CFPs)
- · Sustained support in highly specialized training to increase number of personnel equipped with highly specialized skills

### **R&D Technologies**

 Increased exposure of R & D grantees in novel fields especially abroad that will eventually be translated to applied R&D proposals

### Facilities / Services

- Strengthen the promotion of HRDP grants
- Increased engagement and grants to aid component programs that have a significant exposure and experience to novel and game changing fields along with
- increased end expanded
- papers, presentations, services
- · that will be useful nationwide

### S&T Policies

 Development of guidelines to increase entitlements and benefits for the pool of researchers and personnel

# **Overall Outcomes**

### Human Resource (HRDP)

- Increased exposure of Filipino researchers to different capacity building opportunities
- Increased engagement of researchers in the in the regions
- Increased MS and PhD graduates in the industry, energy and emerging technology sectors
- Capacitate researchers on R & D management
- Identify new and emerging field that need HRD support

## **R&D Technologies**

 Increased R & D w orkforce that are ready to conduct, present and extend research initiatives and S&T innovations

### Facilities / Services

- Increased use of researchers on DOST and other facilities and services S & T Policies
- New HRDP Policies and Guidelines on highly specialized trainings related to PCIEERD sectors and novel technologies acquired from research attachments and visiting experts

## Good Governance through Data Science and Decision Support System (GODDESS) Roadmap

Updated as of 29 February 2024

### **Overall Strategies Human Resource**

- Engagement/pre-engagement of potential/interested proponents/researchers with background in Data Science and Analytics prior to Call For Proposals (CFPs)
- Strengthen promotions of Data Science and Analytics researches and projects to NGAs and LGUs that can be a potential end user of data-driven management systems
- · To expand GODDESS projects throughout the regional level
- · Forged partnerships with the identified NGAs & LGUs

### **R&D Technologies**

 Increased exposure of R & D grantees in novel fields especially abroad that will eventually b e translated toapplied R&D proposals

### Facilities / Services

 To promote current and upcoming data-driven support systems and solutions that are ready for adoption of various beneficiaries.

### S&T Policies

· Development of guidelines to refocus the program to accommodate and address real world gaps through Data Science and Analytics

## 15M

Support to 10 new program on GODDESS 2

 Forged partnerships through Letter of Commitment between institutions & DOJ, DAR, COA, DAP, Procurement

· 2nd GODDESS Forum - Presentation of results

Support to new program on GODDESS phase 2

 Forged partnerships with the other National government agencies (NGAs) & other LGUs

· Adoption of 8 generated full-scale systems ready for deployment

• Implementation of 15 new Capstone projects

R&D Technologies

Human Resource (HRDP)

· Increased exposure and training of Filipino researchers that can be agents for data analytics projects for LGUs & NGAs. · Increase academe-partnership in LGUs

**Overall Outcomes** 

· Increase generation of R & D project proposals related to data

science and analytics.

### Facilities / Services (IDP)

- Increased data analytics system adoptable to the needs of partners
- Improved policies on academic linkages in the Regions, Industries, LGUs, LGA as target partners in terms of data science and analytics solutions.

## 2021

- Supported 4 Capstone projects endorsed Region 1 Consortium of Capstone projects on Traffic monitoring system, Garbage system, Tariff collection, e-governance on pre-emptive evaluation, smart tourism system
- Deployment of 8 generated beta-version systems ready for deployment
- 8 MOAs between institutions LGUs and NGAs

- Supported projects on data analytics such as Senior Citizen w elfare services (FSUU), PhilRice, OCD Region 2, Iloilo LGU
- Capstone projects from Learning-at-scale and SPARTA learners

DOST4U

# Balik Scientist Program (BSP) Roadmap

Updated as of 29 February 2024

### Overall Strategies

### **Human Resource**

- · Promotional activities to encourage Filipino scientists to serve and give back to the Philippines and share their knowledge and expertise
- Technical training of Host Institutions and R & D personnel on new technologies and techniques to accelerate their R & D
- · Engagement of Balik Scientists to various PCIEERD and BSP
- · Engagement of Balik Scientist on PCIEERD Tiktok
- Intensive promotion and preengagement activities with potential Host Institutions and Balik Scientist
- · Engagement of repatriated BS as program supervisor for PCIEERD's R&D roadmap

### **R&D Technologies**

- Submission of R & D project/program proposal to DOST or other funding institutions
- · Availability of new technologies in the R & D Institutions that can be applied for technology transfer
- Development of program for BSP R&D Grant

  - · Materials science
  - Nanotechnology
  - Energy efficiency
  - Transportation
  - Engineering
  - · Analytical Chemistry
  - · Convergence of Tech transfer on TAPI's HIRANG Project
  - Creativ e Industries
  - · Human Security (Defense S&T)
  - Emerging Technologies
  - 10 Balik Scientists hosted by research institutions (DLSU, UP DMMME, MIRDC, PNRI, UPVTC, EVSU, CSU, TAPI, AdDU, UP DChE, FEATI, NU and
  - 5 new BSP host Institutions Engaged (TAPI, NU, UPVTC, EVSU, and USTP)
  - 1 Supplemental Balik Scientist Guidelines
  - 1 Achievement Award Guidelines
  - 3 repatriated Balik Scientists
  - 59 technologies/projects assisted 70 local capability building/trainings

### Facilities / Services

· Strengthening of the research capabilities of the host institutions through submission of IDP project proposal for possible

### **S&T Policies**

- · Conduct of BSP Impact Assessment
- · Revisit the BSP entitlements and incentives
- · Development of the supplemental guidelines and Achiev ement Award auidelines
- Development of program for BSP R&D Grant
- Support to new programs for Balik Scientist after their engagement
