

# Multi-site Visualization System for Decision Support System

Kanokvate Tungpimolrut

Ministry of Science and Technology, Thailand

National Electronics and Computer Technology Center (NECTEC)

## Outline

- Brief introduction of NECTEC
- ICT based real time **Dam Safety** monitoring system with **EGAT**
- Necessity of Decision Support System

Pathumthani

# NECTEC Vision and Mission

## Vision

“Being a core organization collaborating with alliances in R&D of  
electronics and computer technologies for strengthening the  
sustainability of Thai industries and the sufficiency society.”

## Mission

- Research, development, design and engineering
- Technology transfer to industries and communities
- Human resource development
- Policy research, industrial intelligence and knowledge infrastructure

# Number of staffs

-- March 2015 --

## Job function

Total 665 people

## Graduation

# NECTEC R&D Units

Institute of Technology for Persons with Disabilities and Elderlies	Intelligent Informatics Research Unit	Thai Microelectronics Center
Electronics and Computer Equipment Certification Section	Information Communication and Computing Research Unit	Innovation and Engineering Development Unit
Thai Organic and Printed Electronics Innovation Center	Biomedical Electronics and Systems Development Unit	Advanced Automation and Electronics Research Unit
	Wireless Information Security and Eco-Electronics Research Unit	Intelligent Devices and Systems Research Unit

# EGAT'S MAIN DAM

Royal Irrigation  
Department (RID)

# *Contracted Capacity Type of Fuel Year 2010*

Capacity of EGAT = 14,998 MW or 48.50%

Capacity of Independent = 15,922 MW or 51.50%

Total Capacity = 30,920 MW

- ★ REGCO, KEGCO, RCGO, IPT, TECO, GLW, EPEC, BLCP, GPG And RPCL
- ★★ THPL, HHPC, NTN-2, and NNG-2
- ★★★ HVDC (High Voltage Direct Current Transmission) - Thailand - Malaysia

Is this a lake?

Thailand's Worst  
Disaster in 70  
Years...**(2011)**

# 33 Large Dams and Reservoirs

November 1, 2011

## Past earthquake locations in South East Asia

- **Dam failure or levee breeches:**
  - \* Hydrological and seismic hazards
  - \* Old dams were built with old safety standard
  - \* Dam failure is disastrous
- **High possibility of earthquake in this region:**

# Chi-Kang Dam, Taiwan

## Effect from Chi-Chi Earthquake (Sep 20, 1999)

**Object : to ensure that all EGAT Dam's structure do not create unacceptable risks to public safety and welfare, property, the environment and cultural resources.**

## Risk

Flood  
Earthquake  
Reservoir Operation (Missed Operation)

## Dam Monitoring

Dam Behavior => Not Conform with Design Criteria  
Hydrology & Flood => Over than Design  
Seismic Force => Over than Design

Degree of Damage

Impact (if Failure)

Social

High (Low Water Level)

Generation

High

## DAM SAFETY REMOTE MONITORING SYSTEM

EGAT

MOU

NECTEC

### EGAT'S DAM SAFETY REMOTE MONITORING SYSTEM

Bhumibol dam  
Srinagarind dam  
Rajjaprabha dam  
Ubolratana dam  
Chulabhorn dam  
Pak Mun dam  
Mae Chang dam

Sirikit dam  
Vajiralongkorn dam  
Bang Lang dam  
Sirindhorn dam  
Huai Kum dam  
Nam Pung dam  
Upper Pond lamtaklong

- Electricity Maintenance Engineering  
- Geology  
- Hydrology

NECTEC - Softwares  
- Electronics  
- Telecommunication

# DAM SAFETY REMOTE MONITORING SYSTEM

## Hydro-Meteorological Instruments

- Reservoir Water level
- Tailrace Water level
- Rain
- Evaporation
- Air Temperature
- Humidity

## Dam Instruments

- Seepage
- Hydraulic piezometer
- Open standpipe piezometer
- Observation well
- Weir
- Settlement & Displacement

## Seismological Instruments

- Seismometer
- Accelerometer

## DAM SAFETY REMOTE MONITORING SYSTEM

- DAM SAFETY ONLINE MONITOR
- EXPERT SYSTEM
- WAR ROOM
